

**Macro systems**  
(government, UN,  
justice, etc)

**Meso systems**  
(police,  
communities,  
organisations)

**Micro systems (interpersonal  
relationships, couples, friends, etc)**

When filling out this worksheet, consider the macro, meso, and micro influences which could impact the fairness of your algorithmic technology.

- **Macro influences:** This might include legal influences, government policy, cultural influences, etc.
- **Meso influences:** This might include organisation policy, culture, stakeholder communities, etc.
- **Micro influences:** This might include team dynamics, communication issues, individual users, etc.

**Macro system influences**

**Meso system influences**

**Micro system influences**
